—Dr. Luppo, of Los Angeles, California, who is one of the efficient members of the Howard medical corps, related to us yesterday a sad event which occurred in Fort Pickering. The wife of Mr. Abadie. a French citizen, died some two or three weeks ago. Mr. Abadie and his children were stricken with the fever. Dr. Luppo was called to attend them, and all became nearly convalescent. Mr. Abadie continually brooded on the loss of his wife, but steadily grew better every day. On Saturday Dr. Luppo called, and found all so far recovered as to report them convalescent. On Sunday, however, he

"Let Up on the Ministry."

Editors Appeal.—Are you not hard in your strictures on the Protostant ministers? All are not made with the same temperament, courage. I have faced this plague from the beginning, but I could not stand up and let any one shoot at me. I have tried to do my duty to all, white and colored. My sfflictions are more than I can stand, having lost my dear wife and daughter, and seeing my friends sickening and dying almost daily. Do not understand me as saying you are entirely wrong; that wife excuse is getting rather stale. I am not a member of any church; have been accused of being rather skeptical, but show to others the same charity that you would have shown to you. Is my motto. Permit me to speak of Rev. Dr. Lauderdale, of the Christian church, who has been all the time with the sick, not only advising as a physician, but using his money. He has truly clothed the maked and fed the hungry. Our colored friends are hard to please. Many of them charge exorbitant rates for any service they may do, and then think hard if they are not fed gratuitously. They care very little for one another. We have some new cases this morning. Esquire M'Elwee is down this morning. Esquire M'Elwee is down this morning; has had nine cases in his family, self included. From the best information I can obtain, we have had about eighty cases, with thirty-two deaths. I hear that one lady is expected to die to-day—Mrs. Leou. Dear Appeal., let up a little on the ministry; some are so constituted they cannot help themseves, in the name of my people. I thank the Howards and Casey Young for their goodness to us.

A. WEBB, M.D.

Collierville, October 18, 1878.

Mr. R. C. Brinkley.

EDITORS APPEAL—In one of your city papers, of the fourth instant, appeared an editorial written, doubtless, by a self-appointed pro tem., reflecting severely upon one of your citizens, now of this place, and, although no name is used, was unmistakably intended for Colonel R. C. Brinkley, who has been prostrated for the last three months by a severe and dangerous indisposition, and who is unable to reply even if he knew of the catstence of such a virulent and mendselous article. Colonel Brinkley is too well-known by your citizens and throughout the Union to require this viridication from me, but when meanness and mally nity are united to injure one whose name is the viry synonym of benevolence and unselfish chanty, it is but right that the siander should be hurled back upon the perpetrator. Colonel Brinkley has suffered severely, mentally, physically and inancially, by the pestilence at Memphis, and has contributed much of his now limited means to the stricken and, suffering people, but unlike, may be, the editor of said paper has not thought proper to let his left hand know what his right hand did. I have been in daily attendance on him since the scourge has been in Memphis, and can testify to his sympathy at id deep anxlety to render all the aid in his power, and I know of his having often contributed libe rally of his means. This is well known to Memphi ans now here, who testify to his public-spirited genero sity and ever-ready charity. Please give this a place in your widely-read paper, and much oblige me and many others.

WING to the prevalence and continued malignity of the rellow-fever, I have this day closed the Bank. The fever having invaded the cashler's family and left me without assistants, I thought this the most prudent course to pursue. Funds deposited at the German National Bank. I will make my head-quarters with the Ninth National Bank of New York, and am prepared to respond to all calls of depositors. Special deposits in my charge. I hope the abatement of the fever will permit me to resume business at an early day.

A Non-Explosive Oil COLAR LIGHT is highest test made from superior crude: Is without color, odor or smoke; Is springwater white color; will not explode while burning in a lamp nor in any way, as it does not contain any of explosive compounds so frequently met with ordinary oils for illuminating. A lamp with SOLAR-LIGHT OIL, if upset or broken accidentally, will not explode or burn. It is free from all the dangerous gases which are usually found in illuminating oils made from petroleum, by the use of which has been caused so much destruction of life and property.

YELLOW FEVER

A CCORDING to the most intelligent medical opinlon yellow-fever is intensified malaria, and Dr.
William Alex Green, of Georgia, member and exvice-president of Georgia Medical Association, member of State board of physicians, and chief surgeon
of artillery of A. P. Hill's corps, after great experience in malarial and yellow-fever, indorses and
recommends most highly in the Cincinnati Medical
News, the Bring (VA.) Sprinness Alum and Inon
Mass, as a precentive and cure for both of these
dreadful disease. He states that this mass should
be taken rapidly and in large doses—saturating the
blood with it and putting the system under its intupains in the head and limbs, and also the naught
that under its use the urine rapidly loses its the
bloody character, becoming clear and limpid;
the paroxyma are rendered milder, less frequent and
of shorter derection; that it is also most beneficial from
the very mement the acute stage subsides, and during convelencence; that he places great reliance in
this mass, using such other adjunct treatment as the
course of the decase may suggest. The Cincinnati
Medical News usges all to try this remedy, that its
efficacy may be known and utilized.

This mass may be had of druggists, or ordered
from the Bedford Alum and Iron Springs Company,
Lynchburg, Virginia, and it can be sent by mail,
post-paid, or express at fifty cents or one dollar a
package, or two dollars and a half or five dollars for
half dozen.

To Yellow-Fever Sufferers. Five out of six of my household, near Moscow, Tennessee, have lately had the yellow-fever, prevailing in that section. All of them have recovered, the attacks being mitigated and their recovery due, as I believe to the use of Bedford Alumand Iron Springs Mass, which was used in their cases, and before they were attacked. I make this statement for the benefit of others who may be afflicted with this dread disease, and to put in their reach the knowledge of this great remedy. S. M. DAVIS. September 21, 1878.
